Linde

General Safety and Environmental Rules.

Linde

100%
SHEQ

Dear visitor/driver/ contractor/supplier,

Welcome to this Linde Gas Benelux site. We are all jointly responsible for safety. Therefore, to ensure your safety and ours, we kindly request that you read the following safety measures and environmental rules carefully.

- In addition to a description of their work, contractors will also receive a list of supplementary measures, which are part of their work order.
- There is a lot of traffic on site. Lorries and forklift trucks always have right of way. There are marked footpaths for pedestrians – but always stay alert!
- Unaccompanied visitors must wear the mandatory Personal Protective Equipment, as indicated on signs.
- Gases are to be regarded dangerously. All gases have certain properties that must be taken into account.
- Technical and operating errors can also result in accidents and/or damage to property. It is important that everyone is aware of how to work safely and avoid mistakes in order to protect all of our lives.
- EVERYONE constantly takes the necessary measures to prevent injuries and damage to property. AT ALL TIMES AND EVERYWHERE.

The following basic rules for safe working apply at Linde Gas Benelux:

- Signing in/signing out: All employees from another Linde site, as well as all visitors, drivers, contractors and suppliers must report to reception or to the Linde Gas Benelux contact person when arriving at and when leaving this site.
- It is forbidden to have alcohol or drugs in your possession, to drink alcohol or take drugs, or to be under the influence of alcohol or drugs. Be aware that taking certain medicines may delay reaction time.
- It is forbidden to take photographs or to film without the permission of your Linde Gas Benelux contact person.
- You must wear the prescribed Personal Protective Equipment (PPE).
- Never exceed the given speed limits!
- Smoking is only permitted in designated areas. All applicable rules regarding naked flames can be found in your work permit.
- You must comply with all legal requirements and all Linde Gas Benelux rules.
- Your Linde Gas Benelux contact person will issue you with a work permit for specific activities.
- You must carry out only the activities described in your work order and/or work permit.

- Only officially approved ladders and/or officially approved scaffolding must be used when working at height. Fall protection is obligatory!
- Keep your work place clean and tidy.
- Accidents, near-misses, damage and any dangerous actions or unsafe situations must be reported immediately to your Linde Gas Benelux contact person, who will draw up an incident report based on the information that you provide.

General emergency services number
in the Netherlands: **112**

At this plant: _____

(please state emergency number here)

Leading by innovation.

Standing still is in fact the same as going backwards, but in order to move forward, an organisation needs constant innovation – and that means reliable partners. One of those partners is your gas supplier, and in addition to always being there for you, Linde Gas Benelux is a gas supplier that works with you to ensure optimum service.

With its 100 years of experience, operating until 2007 under the well-known brand name HoekLoos, Linde Gas can provide gas application solutions for virtually all sectors of the market, which makes us your ideal, reliable business partner for efficient, innovative and successful gas and related services, including customised applications. In short, your organisation and your corporate processes take centre stage.

Benefiting from the technological knowledge and advancements made possible by our international R&D department, we are a global leader in new concepts and targeted applications. Fuelled by our entrepreneurial ambitions, we constantly work to innovate and develop new solutions, many of which may be ideally suited to your organisation. At Linde, our motto is 'ideas become solutions'. This applies not only to our own ideas, but certainly to yours as well. Together we can make it happen!

Linde – ideas become solutions.
